## INTRODUCTION

Eva-Last<sup>®</sup>'s range of composite building solutions offer you premium outdoor living through innovative, durable and eco-friendly products. Eva-Last<sup>®</sup> manufactures and supplies extruded bamboo-plastic composite decking as well as various accessories to match. Whether you're converting a dull patio area into a dreamy deck, transforming a lifeless wall into a masterful design feature or need expert assistance on your next commercial project, Eva-Last<sup>®</sup>'s decade of experience will ensure you walk away completely satisfied.

EMBRACE THE POSSIBILITIES OF A WORLD INSPIRED BY NATURE.

## *Infinity*<sup>™</sup>

Introducing Infinity<sup>™</sup>; the latest co-extruded bamboo-plastic composite innovation from Eva-Last<sup>®</sup>. Over a decade of product research, optimisation and extensive testing led Eva-Last<sup>®</sup> to the development of this engineered protective cap. The outer layer safeguards our boards from UV, biodegradation and weathering. The process used in the manufacture of the Eva-tech<sup>™</sup> core provides variable and authentic colour finishes that mimic the natural beauty of wood. The Infinity<sup>™</sup> cap shields the board providing improved colour fade resistance. Infinity<sup>™</sup> products are designed to withstand extreme climatic conditions.

### 1 Infinity<sup>™</sup> Cap

The Infinity<sup>™</sup> capping makes Eva-Last<sup>®</sup> composite decking hard-wearing, scratch resistant and UV-resistant - essential for high-traffic surfaces.

### 2 Eva-tech<sup>™</sup> Core

At the heart of all Eva-Last<sup>®</sup> composite boards is a fusion of two tenacious materials; recycled high-density polyethylene and FSC approved bamboo fibers form the foundation of our products. Engineered additives and stabilisers assist in providing a material designed to last for decades.

The Infinity<sup>™</sup> range sets a new standard for the composite industry; the 25-year warranty is testament to its durability. You can expect to be covered the moment you decide to embark on the Infinity<sup>™</sup> journey with us. Applicable to both commercial and residential applications.

*Infinity*<sup>™</sup>

INFINITY<sup>™</sup> GROOVED BOARDS

Aged Grain (J1R1)

Smooth Bark (Q1R)

Tiger Cove

Antique Wash

Espresso Roast

Cape Town Grey

*Infinity*<sup>™</sup> Grooved co-extruded composite decking

Dimensions	140 x 23 mm (5.4 m lengths)
Weight	3.86 kg per Metre
Joist spacing	450 mm centre to centre
Fasteners	HULK Halo clips, 16 per square Metre

Infinity<sup>™</sup> Grooved boards are designed to be used with our hidden deck fasteners, leaving a clean and neat finish. The clip system has been modified to secure the boards in place and optimise any expansion and contraction.

*Infinity™*

INFINITY™ SOLID BOARDS

Aged Grain (J1R1)    Smooth Bark (Q1R)

Tiger Cove

Antique Wash

Espresso Roast

Cape Town Grey

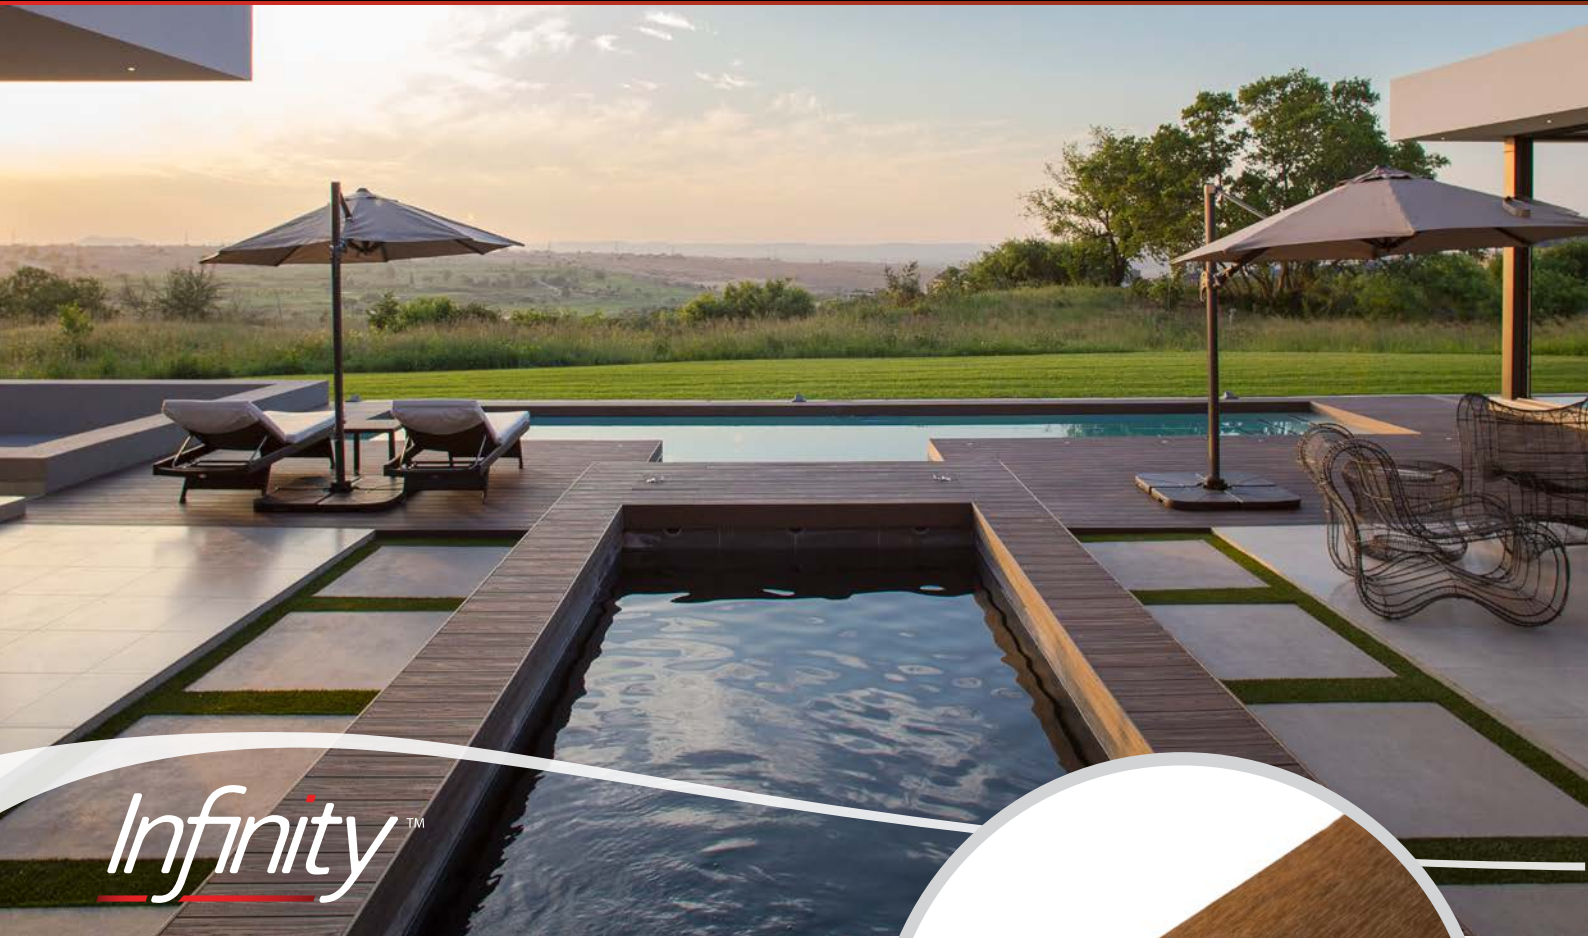

*Infinity™* Solid co-extruded composite decking

Dimensions	140 x 23 mm (5.4 m lengths)
Weight	3.86 kg per Metre
Joist spacing	450 mm centre to centre
Fasteners	HULK screws, 30 per square Metre

The square edge deck board is a solid-rectangular profile. HULK top fixing screws, available in various colours to match the selected deck board, fix the boards in place. The double-sided board has finishes on both faces of the profile providing interchangeable textural options.

*Infinity™*

**INFINITY™ FASCIA AND TRIM BOARDS**

Fascia and trim boards are only available in brushed (R) finish.

Tiger Cove

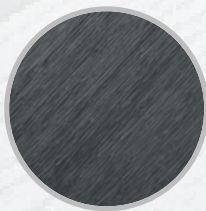

Antique Wash

Espresso Roast

Cape Town Grey

*Infinity™* co-extruded composite fascia

Dimensions	305 x 18 mm (3.6 m lengths)
Weight	4.58 kg per Metre

The trim fascia board is a thin, lightweight rectangular profile. The double-sided board has finishes on both faces of the profile offering an element of aesthetic versatility. The lightweight profile has multiple vertical applications including cladding, as stair risers and as trim around a deck. HULK top fixing screws securely fasten the boards in place.

## COLOURS & FINISHES

The Infinity™ Grooved and Solid deck boards are reversible, providing alternative finishes in a single product. Colours are also interchangeable, maximising the design options available to you and providing more flexibility so as to ensure you find your perfect match.

### COLOURS

Tiger Cove (C06)

Antique Wash (C69)

Espresso Roast (C15)

Cape Town Grey (C11)

### DECK BOARD FINISHES

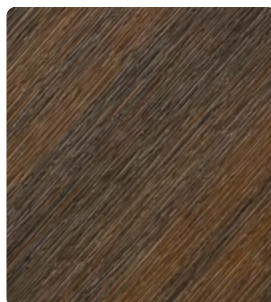

Aged Grain (J1R1)

Smooth Bark (Q1R)

### FASCIA FINISH

Brushed (R)

# Fasteners

Fastened. For life.

 **HULK** FASTENERS.

No pre-drilling\*

Corrosion resistant

Neat surface finish

Easy torque control

## HULK FASTENERS

Eva-Last<sup>®</sup> has developed a range of fasteners that thoroughly compliment our composite products to ensure the stability and longevity of your deck. HULK fasteners are specially designed to securely fasten the deck boards to a substructure, but can also be used in many other wood and steel fixing applications. The coating employed for our HULK fasteners ensure the fixing system supports your deck through out its lifespan.

HULK FASTENERS				
Image	Colour	Bits	Material	Units
 HALO CLIP	Black	1HTX (II)	Stainless steel 430	125
 SCREW			Stainless steel 305	
 CDS SCREW	Brown	TX 20	Stainless steel 305	75
 CDS SCREW	Dark Brown	TX 20	Stainless steel 305	75
 CDS SCREW	Dark Grey	TX 20	Stainless steel 305	75
 CDS SCREW	Light Grey	TX 20	Stainless steel 305	75

## COMPOSITE DECK SCREWS

The colours of our composite deck screws (CDS) can be perfectly matched with your deck boards.

# Treasure a greener tomorrow

## Eva-Last® provides superior alternatives to timber ensuring a greener future.

Eva-Last® is a globally trusted brand known for its durable and environmentally friendly product range. We offer ultra-low maintenance and highly weather resistant alternatives to timber; reducing the impact on our forests.

- *Made from recycled materials*
- *No trees felled*
- *No staining or varnishing*
- *No toxic chemicals*
- *Reduced impact on landfills*
- *Reduced global footprint*

Forest Stewardship Council (FSC) certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. The diverse fauna and flora who share our forests are given the time and space to recover from our use of their environments.
